Thanks for following up with Maxine on this, Andy.

Say, did Ameren ever hand deliver any type of hard drive to you all or provide an ftp link for its complete submission package? I'm trying to close out a loop with the docketing center who is having issues with some type of hard drive submission that specifically contains Exhibit 15 "Alpine, WRF Modeling Data – Input Files Provided to EPA in hard drive form on 3/31/2016"

If you somehow have access to the whole submission, can you let me know and we'll figure out a way to close out the loop with the docket.

Thanks.

Subject: Ameren documents/data submitted to EPA for Labadie SO2 designation

Andy,
Ameren's comments and exhibits regarding the Labadie SO2 designation were uploaded today to the

docket at regulations.gov (ID: EPA-HQ-OAR-2014-0464-0326), but several exhibits are not accessible to the public. I have been able to get most of them from OAQPS, but they do not have the information submitted as Exhibits 12, 13, and 14, which were apparently provided by Ameren to EPA and DNR through a secure, password-protected ftp site. Attached is the information uploaded to the docket regarding these Exhibits.

Can EPA make the information submitted to EPA by Ameren as Exhibits 12, 13, and 14 available to us? Perhaps you can upload it to your ftp site and we can download it?

Thanks in advance for your assistance.
Maxine
